

Country:Bangladesh

Committee:FAO2

Esteemed President and distinguished delegates, today I will tell you about the country of Bangladesh and the work of the World Agriculture Organization. The country of Bangladesh is located in South Asia, Myanmar and India are border neighbors, its population is 171.2 million according to research in 2022, its official language is Bengali, its capital is Dhaka, its currency is Bangladeshi exchange, its surface area is 147,570. 98% of the country is Bengali, 2% of people from other countries live in the country. The tropical climate prevails in the country of Bangladesh. Summers are hot and humid, winters are mild, monsoon rains occur between June and October.

According to estimates in 2021, the national income of the country of Bangladesh is 378,634 million dollars. The unemployment rate of the country is 4.1% and the poverty rate is 20.5%. palm oil, soybeans and sugar cane. Trade partners are China, India, USA, Germany, England. In Bangladesh, corn, rice, potatoes, wheat, legumes, vegetables, fruits, and tropical fruits are among the most grown agricultural products, as well as sea fishing in the country. In addition to fishing, fish farms are also very common. Bangladesh stands out as a frontier market on investors' radar.

Goldman Sachs lists the country in the "Next 11" (11 countries that can compete with the G7) selected to the developing country list. Bangladesh coming to India

It is predicted that the investments will be positively affected, and in addition, domestic shipbuilding

industry may drive growth in the coming period. government infrastructure

The move could create opportunities for growth by improving the logistics environment.

As a result, if Bangladesh trades more agricultural products grown in the country, it will generate more national income, which will lead to the development of the country.

Thank you for listening to me.
