

# NIGERIA

**COUNTRY:** Nigeria

**COMMITTEE:** DISEC

**TOPIC:** The Russia-Ukraine War and the Use of Weapons in International Law

---

Nigeria is the ninth big oil producer in the world, as known with petroleum and natural gas reserves, amazing natural beauties and rich, multicultural nation. As Nigeria we also give a big importance to peace and try to do our best to ensure Africa and world peace.

As a country that consider important to peace we follow up the Russia-Ukraine's conflict and tension very sad and nervously. The Russia-Ukrain War began in February 2014. Following Ukraine's Revolution of Dignity, Russia occupied Crimea from Ukraine and supported pro-Russian separatists fighting the Ukrainian military in the Donbas War. In these first eight years there were also cyber attacks too. Since that time, more than 25.000 civilians died. Attacking civilians disturb us a lot. We believe that we can solve the problems with diplomacy and if it is not possible the war should be limited to soldiers.

Nigeria defends that national sovereignty and territorial integrity should be protected and says that wars affects global peace badly. As Nigeria we always voice peace's importance at AU and UN. To us wars also affect to global food security and energy.

As Nigeria we suggest the UN to support civilians and try to stop the war. We think that we should fulfill civilian's base needs. To us not just Russia-Ukraine War, wars all over the world can be stopped by diplomacy, without weapons and wars. In this situation our mission is to do our best to ensure world peace and to always be next to our civilians. Nigeria is ready to do whatever it takes.
